  QA Engineer
  2023
- **National University of Ukraine on Physical Education and Sport**
  coach, teacher of physical education
  1995-2000

About Me

I am a junior QA tester with great attention to detail and education. Since I started testing, I have realized how important it is to be a team player and to make progress. I enjoy new challenges and want to learn more and more about this field and improve my skills every day. I aim to succeed in a complex, innovative QA work environment while fully unleashing my potential. That's why I am looking for a company that will allow me to learn and develop as a software tester. Additionally, I have successfully completed training as an automation tester, allowing me to effectively use test automation tools to enhance the efficiency and quality of the testing process.

Pet-projects
